Learner Application and Pre-Placement Communicable Disease Screening Requirements

**MOA must be signed prior to application being sent in

NOT acceptable:

- Record showing evidence (date) that you were ill with the chicken pox, or
- Self-provided history of chicken pox

Tetanus/Diphtheria – Childhood or adult primary series of Td with boosters every 10 years. Also see Acellular Pertussis (Tdap) as an adult

Acellular Pertussis – Documentation of having received one single dose of tetanus, diphtheria, pertussis vaccine (Tdap) as an adult

Immunity to Hepatitis B – one of the following is acceptable:

- Hep B Vaccine Series (3 doses), or
- Anti-HBs titre result and date

**The educational institution is responsible for Hepatitis B immunization and post exposure follow-up for all learners.

Influenza & Covid 19 Vaccinations – All students must provide proof of original 2 covid vaccines. It is recommended that students receive the annual flu vaccine unless medically contraindicated.

**** If not vaccinated against annual flu vaccine students will not be able to be on-site in the event of an outbreak**

Vulnerable Sector Check – All Learners participating in placement at BGH must have a VSC completed and clear. This must be current within 6 months of placement start date. No exceptions will be used.

Respirator (N95) Clearance – Learners are required to have N95 respirator fit testing dated within the last 2 years.

** BGH no longer fit tests learners
